

## CANSORB

P1728.0303

Waste Treatment

### Product Description

CANSORB is an all organic hydrocarbon absorbent with a high humic acid content, manufactured from high quality large fibre Sphagnum Peat Moss. Due to its fibrous structure and its processing, CANSORB works to absorb hydrocarbons quickly on contact by virtue of its wicking action and encapsulates oil on contact. This makes CANSORB ideal for hydrocarbon clean up both on open water and land applications. CANSORB absorbs, on average, eight times its weight.

### Features and Benefits

Absorbs, on average, 8 times its weight - Repels water - Non – toxic - Non – leaching - Non – abrasive - 100% organic material - Suppresses 90% of explosive vapors 7000 B.T.U./LB - Reduces disposal costs by up to 90% - Enhances bioremediation of hydrocarbons

### International Shipping References

Transportation of CANSORB is not restricted by any regulatory agency.

### Safe Handling Recommendations

Utilize normal precautions for protection when handling the product. Utilize appropriate respirator, gloves, goggles and apron. Refer to the Material Safety Data Sheet (MSDS) for this product prior to use.

### Typical Physical Properties

- Physical State: Solid
- Max Temperature: 300
- Reservoir Compatible: Non-Reservoir
- Category: Waste Treatment
- Sub Category: HC Absorbent
- Product Tier: Regular
- SG value: 0.33

### Product Function

A large list hydrocarbons liquids can be totally absorbed by CANSORB's. Subject to local regulations, it is suitable for landfill sites. It can be incinerated in fuel blending operations, leaving only a low ash by-product. CANSORB's naturally high humic acid level stimulates microbial activity, making it ideal for composting.

### Recommended Treatment

Treatment levels are determined by specified requirements.

### Standard Packing

CANSORB is packaged Loose Filled Bags (LFB). This product is packaged for easy deployment. This ease combined with compact size allows for one time use and storage in situations where space is limited and larger barrels and bales are prohibitive. CS – LFB –10 – 10 lbs bag – 4 bag / box CS – LFB – 5 – 5 lbs bag – 8 bag / box
